

# The Transformation of the Ordinary ...into the Extraordinary

Great for  
Poly Lawn  
Furniture!

Screw + Nail = **SCRAIL®**

**FASTCOAT: Indoor and outdoor use.**  
**ELEC-GALV: Indoor use only - studs, etc.**

Unlike ordinary nails or screws, SCRAIL® collated fasteners are incredibly versatile fasteners that can be driven with a pneumatic nailer, making projects quick and easy!

- ➔ Use almost anywhere ordinary screws are used
- ➔ Saves time and labor costs
- ➔ **TWICE** as fast as collated screws
- ➔ **EIGHT** times faster than bulk screws
- ➔ Easily adjusted, quickly removable
- ➔ Dramatically increased holding power vs. nails

### Customer Comment:

"The Scrails drove nicely with a hammer and backed out of the wood well with a screw gun, allowing a much simpler board replacement than a nail would have. It is an advantage over nailing due to easier board replacement and an advantage over screwing due to speed of installation."
